2019 IMEA 610 Wood Pole Climbing Workshop

Lineman Apprentice Progression Program

LAPP-100 --- For more than 78 years, IMEA has been bringing its members countless safety workshops and custom-designed programs while training thousands of people with our message of safe work practices. A point of pride for the IMEA is our Lineman Apprentice Progression Program (LAPP). With an ever-changing industry such as ours it's imperative that our training stay up to date and consistent with industry standards. Our curriculum has undergone a complete overhaul. We've increased the number of correspondence lessons from 12 per year to 25 per year and changed the text books we use to deliver our training. The new program has been re-branded as **IMEA LAPP - 100**
