## GAS CITY ELECTRIC UTILITY

### *Breaking New Ground: A Place We Now Call Home*

Gas City and Utility Manager, Dick Justice broke ground for Gas City's New Electric Utility one year ago, November 2018. Gas City Utility Management & employees moved in to the property, June of 2019.

Dick Justice, Utility Manager of Gas City has been employed with Gas City for 35 years his tenure. The Utility houses 6 employees, 4 linemen, one servicemen and one groundman. Brian Chapman is the lead lineman.

Gas City Utility management made efforts as well as City Officials to ensure that the Utility crew were provided a firm established facility to work from and a good working environment for all involved. Dick includes that when ownership is taken of a new property, you respect and take good care of the Utility and equipment as a whole by all.

The Utility has many perks of its new establishment but one of its finest features would be an in the floor heating system provided by boiler heat without forced air. This heat is provided through the shop. Just one other economically featured establishment coming very soon is a roof designed to house solar panels for more efficient energy supply.

### Gas City Utilities & Equipment

Gas City purchased a new bucket truck to supply the needs and demands of its surrounding Community. Along with its newest equipment purchased, the City Utility now is supplied with three bucket trucks, three service trucks and one digger derrick. Gas City Utility provides electric, Water, Wastewater, and Storm water.

Don't Miss Out on this Opportunity!
