

Indiana Municipal Electric Association

The Indiana Municipal Electric Association is a service organization formed in 1941. IMEA is an invaluable resource and voice for Indiana's public power communities from the smallest to the largest.

All have benefited by being a member of IMEA at one time or another. All can continue to benefit as one, strong, unified voice. We are dedicated to our

founding principles of providing programs and services that bring members of Indiana municipals the protection, knowledge, experience, and tools needed for the safe, efficient and effective utility operation in today's complex, diverse and ever-changing industry.

Integrity Matters

AEP Energy Partners (AEPEP) understands that each municipality, cooperative and utility customer has different power supply needs and risk profiles. As one of the largest wholesale suppliers in the country, we specialize in offering customized wholesale power supply products based on the specific needs of our customers' electric system. Our energy experts carefully balance the forces of price and risk to create the right power supply product at a competitive price.

Vince Findley, Managing Director Energy Supply
303 Marconi Blvd, Suite 400
Columbus, OH 43215
614-583-6406

2021 IMEA Board of Directors

The IMEA is governed by a 10-member Board of Directors. Each Director may serve up to two three-year terms and are nominated by a three-member committee. Directors are voted on by the membership.

BUCKINGHAM BUCK 1896

Buckingham is the world's leading manufacturer of fall protection equipment such as body belts, climbers, wood pole fall protection, harnesses, lanyards as well as many tools that support the electrical contractor industry.

BuckOhm™ TrueFit® Harness - U68L7NQ23

- One size will fit anyone from a small up to a 3XL!
- Whether your 5' 1" and 130 lbs. or 6' 6" and 325 lbs., this harness will fit you!
- 9KV Dielectric Hardware.
- Unique adjustment features on both the front and back of harness
- Arc-Tested

Buckeye Bucket Hooks - 2140/2410T

- Can fit up to a 2 1/2" bucket lip.
- The outside hook has a 40 lb. WLL (3:1 safety factor).
- The two inside accessory hooks with a 15 lb. WLL (3:1 safety factor).
- Tool tether connection eye rated to 8 lbs.
- Gated Versions Also Available - 2410G / 2410GT

Adjustable Dee Body Belt - 20192CM

- This Patented belt offers an adjustable man-rated upper belt strap and an adjustable lower work positioning D-piece that allows the user to customize the size of the body belt at any given moment.
- Users will now have a belt that can adjust three to four sizes.
- This belt is perfect for those who work in areas of the country where there are large temperature swings – when one part of day or season you could be wearing only FR pants and shirt, then next you could be wearing heavy-duty Carhartt's. Having an adjustable belt allows the user to adjust for comfort and practicality.

Improve Restoration Time from hours to minutes with G&W Electric's model-based Fault Location, Isolation and Service Restoration (FLISR) solution.

Advantages of FLISR:

- Increased Reliability Numbers – SAIDI & CAIDI go down
- Remote Monitoring/Control - connects field devices back to SCADA
- Increased Speed of Restoration
- Ease of system expansion and/or changes
- Advanced applications combined with FLISR (ex. Power Flow and Volt VAR)
