

Randy Ennis 2023 IMEA Board President

Hello, my name is Randy Ennis. I would like to take this opportunity to provide you with a brief background of myself. I was born and raised in Washington, Indiana. For the past twenty years I have worked for Washington Light and Power. I started my career as an apprentice lineman and worked my way up becoming a Journeyman. In 2019 I was promoted to Superintendent of the Washington Electric Department. I have always felt a great sense of pride working in Public Power; providing quality service to the citizens of Washington and Montgomery, Indiana.

Washington has been an active member of IMEA since 2013. The staff at Washington Light and Power have benefited tremendously from the IMEA Safety and Training programs. We feel the personal approach that the IMEA staff provides has been exceptional. Our staff knows that they can reach out with any questions, comments, or concerns, and they will be met with a prompt response.

It was an honor to be appointed to serve at the helm of the organization as its 82nd President. It is my goal for 2023 to continue with the values and commitment that IMEA was founded on. My priority is to focus on the needs and concerns of Indiana Municipals while continuing to bridge the network between IMEA and our Public Power Partners; locally and nationally.

I would like to take this opportunity to thank Jeff Greeno, our 2022 President, for his dedicated service, professionalism, and leadership this past year.

Randy Ennis, 2023 IMEA President (Left) and Jeff Greeno 2023 IMEA Past President (Right)

I would also like to thank the following directors whose terms expired in 2022 for their outstanding leadership contributions. Lenny Larson from Rensselaer, Paul Syverson from Anderson, and Jeff Persyn from Mishawaka. It was a pleasure working with these gentlemen and we wish them well in all their future endeavors.

With that, I would like to conclude by saying that I hope we all have a safe and successful new year. IMEA is here for you and as always willing to assist you in any way that we are able.

Sincerely,
Randy Ennis

Jobs in Public Power

Public power is more to communities than just an essential utility. It is a source of unique and fulfilling career opportunities in your local community. Employees make a difference by serving their own neighborhoods and families. Talented high school, college and technical college graduates—and even technology, environmental and public service professionals—will find that competitive salaries aren't the only thing attractive about careers in public power.

A promotional banner for the 2023 IMEA Annual Business Meeting & Tech Expo. The banner features a dark blue background with a glowing, circular graphic on the right side showing silhouettes of people in a meeting, overlaid with a network of lines and nodes. The text on the left reads: "2023 IMEA ANNUAL BUSINESS MEETING & TECH EXPO October 3-5, 2023". Below this, it says "Monroe Convention Center Bloomington, IN." and "Leadership. Innovation. Collaboration." The IMEA logo is in the bottom left corner.
