

Safety Message of the Day for IMEA Members

Slips, Trips, and Falls Safety Message

Slips, trips, and falls are one of the leading causes of injuries and fatalities in the workplace. According to OSHA, slip, trip, and fall incidents cause 15% of all accidental deaths and are second only to motor vehicle incidents as a cause of fatalities on the job. These types of incidents can result in life-changing injuries to the employees who suffer them.

Discussion points:

- Are there trip hazards due to improperly placed objects in your work area?
- Has anyone or a close family member of yours experienced a severe fall? How has it affected you/ them?
- What are other ways we can protect ourselves from slips, trips, and falls here at our site?
