

Safety Message of the Day for IMEA Members

Lock to Lock Use of Insulating Rubber Gloves Safety Message

PRACTICE DESCRIPTION:

When employees are working on energized circuits or equipment, rubber protective-insulating gloves rated for the exposure of the highest nominal voltage shall be worn “lock to lock” when employees are working on underground electrical equipment. **This includes when the employee manipulates the enclosure’s door.**

APPA Safety Manual: Section 407 - Use and Care of Rubber Gloves
