

## Safety Message of the Day for IMEA Members

### Top Electrical Hazards Series: Safety Message

#### Ignoring Safe Driving Practices to and from Work & at Work

This is not just specific to electrical linemen, but the entire workplace environment at large. Although linemen face many electrical hazards while at work, they also face some hazards while getting to and from their place of work. Too many accidents occur on the road because workers are in a hurry, complacent, or preoccupied.

Employees must keep their focus on the road and follow traffic safety laws to avoid driving accidents. It's not worth hurrying by driving recklessly and risking injury to yourself and others.
