

Safety Message of the Day for IMEA Members

It's Your Decision Safety Message

Most of us like to get our work done with the least amount of effort, and as quickly as possible. We all want to get the most work out of the energy we use on the job. This is good because it often results in discovering newer and more efficient ways of getting our job done.

There is no doubt about it, ***the safe way is not always the shortest or quickest way***. The safe way usually takes some extra effort while the unsafe way often appears to be more efficient at the time.

When we are faced with these situations, each one of us will make a conscious decision about what actions we will take next.
