

Safety Message of the Day for IMEA Members

Working Safely In Extreme Heat Safety Message

Obviously we haven't had the extreme heat, yet; however, it's right around the corner.

Understanding heat safety prevents heat-related illnesses, dehydration, and exhaustion. Proper precautions and awareness ensure a healthy, comfortable, and safe work environment during extreme heat.

Beat the heat safely!

Protect yourself from heat-related illnesses and work comfortably in hot conditions. Stay hydrated, take breaks and wear appropriate clothing. Extreme heat can be dangerous for your health.
