2023 IMEA Scholarship Recipient, Van Skinner Interning with Scottsburg Electric Department

Just finishing up his freshman year at the University of Indianapolis, Van Skinner, son of an employee of the City of Scottsburg, Stacie Skinner, has continued to pursue his bachelors degree, majoring in Electrical Engineering and minoring in Mathematics. Van was a 2023 recipient of the IMEA Scholarship Grant. Other accomplishments while attending the University, Van joined the UIndy wrestling team and has maintained a 3.4 GPA in Spring Term.

Beginning the summer, 2024, Van was offered an internship with Scottsburg Electric Department. During his internship, Superintendent Willie Daniels rotated Van throughout the department so that he could acquire a true understanding of the electric Utility. Departments involved were:

- The Scottsburg Electric Line Crew
- Office Operations
- Meter Locating
- Tree Crew and more.

Having the opportunity to see the linework and day to day operations will be of incredible value as Van continues to work in the electrical engineering field, but also getting to work and learn hands-on, along with the safety measures in place, will continue to give him the knowledge to enhance his career and educational experience.

IMEA Scholarship Opportunities

The Indiana Municipal Electric Association (IMEA) Educational Scholarship Program provides scholarships for up to six (6) college / tech school-bound seniors of IMEA municipal members for continuing education annually. The scholarship aid, in part, is designed to assist the student in attaining the education and skills necessary to compete in today's workforce as he/she works to become a productive and viable member of his/her community.

The \$1,000 scholarship, which is non-renewable, is made available in the spring of each year. The award notification will be presented to the student prior to graduation by a representative of the Indiana Municipal Electric Association. The scholarship will be issued at the end of the first year of college or completion of tech school as long as the student maintains a passing grade.

IMEA 2025 Scholarship Application will be available December 2024. Please visit: www.imea.com / homepage for access to apply within.

Careers in Public Power

Public power is more to communities than just an essential utility. It is a source of unique and fulfilling career opportunities in your local community. Employees make a difference by serving their own neighborhoods and families. Talented high school, college and technical college graduates and even technology, environmental and public service professionals will find that competitive salaries aren't the only thing attractive about careers in public power.

Do you have important news or photos that you would like to share in our bi-weekly newsletters? Please email all news and photos to janel@imea.com

To post a classified ad to our jobs in Public Power page. Please email text to janel@imea.com.
