

Safety Message of the Day for IMEA Members

FR Clothing Safety Message APPA Safety Manual 17th Edition

Paragraph 406 Clothing (page 103, Paragraph d)

When work is performed in the vicinity of exposed parts of equipment, employees shall remove all exposed conductive articles such as key or watch chains, rings or wristwatches or wristbands, if such articles increase the hazards associated with inadvertent contact with energized parts, moving equipment and to avoid pinching, crush hazards and being caught on or in something such as with loose clothing. Loose clothing can also catch on exposed hardware or extend into energized areas. When working on or near energized conductors or equipment the employees **shall** ensure that FR shirts are tucked inside the pants to prevent accidental injury under the shirt due to an arc.
