

Safety Message of the Day for IMEA Members

Failure to use proper personal protective equipment Safety Message

Personal protective equipment (PPE) plays a huge factor when it comes to workplace safety. Wearing protective equipment like proper gloves can mean the difference between a healthy hand and a hand burned from electrical contact. A large number of utility accidents occur because of employee failure to use PPE, including several fatalities within the last 4 weeks!

Talking about PPE is redundant; however, so is discussing the fatalities due to the lack of PPE!
