IMEA Announces Opening of Permanent Training Center at St. Joseph's College Campus

The Indiana Municipal Electric Association (IMEA) is proud to announce the opening of a permanent training center located on the campus of St. Joseph's College in Rensselaer, Indiana. This dedicated facility marks a significant step forward in advancing IMEA's training programs, supporting both current needs and the long-term development of Indiana's electric utility workforce.

The new site includes leased classrooms, a training field, and on-campus apartment housing to accommodate apprentices and extended lineman training sessions. To ensure smooth coordination ahead of the build, Duane Richardson hosted a virtual meeting with all volunteers, helping lay the groundwork before construction began. With materials arriving on-site and the strong support of volunteers from IMEA member communities, construction of the training field is now underway.

We extend our heartfelt gratitude and recognition to the following IMEA member utilities for their invaluable contributions during "Build the Field Day": Rensselaer, Bremen, Argos, Columbia City, Frankfort, Mishawaka and Auburn. Your dedication and teamwork are helping build a stronger future for Indiana's municipal electric systems.

2025 IMEA Annual Business Meeting & Vendor Expo

IMEA Annual Business Meeting & Vendor Expo provides an opportunity to learn from industry experts and network with peers. It attracts all levels of the Indiana utility professionals and staff from member communities, as well as IMEA staff. The conference features educational sessions on technical programs focused on the utility industry. It also provides an opportunity to collaborate with other utilities one on one during the IMEA business meeting.

To make sure that all guests are provided hotel room availability we ask that you reserve your room ahead of time. This way we can keep track of quantity and increase the group block if needed.

We need your voice to be heard & your experience of the Public Power Industry to share with others during the IMEA Annual Business meeting.

Registration is available! Visit [www.imea.com / events](http://www.imea.com/events).

Careers in Public Power

Public power is more to communities than just an essential utility. It is a source of unique and fulfilling career opportunities in your local community. Employees make a difference by serving their own neighborhoods and families. Talented high school, college and technical college graduates and even technology, environmental and public service professionals will find that competitive salaries aren't the only thing attractive about careers in public power.
