

Safety Message of the Day for IMEA Members

Stay Focused in the Danger Zone

One second of distraction can cost a life

- Utility work demands total attention — mental and physical.
- Avoid distractions: phones, side conversations, rushing, fatigue.
- Always maintain proper body positioning. Keep clearances in mind.
- Spotters and observers should remain alert and speak up if they see unsafe actions.
- Remember: the closer you are to the line, the smaller the margin for error.
