

Safety Message of the Day for IMEA Members

Don't Let Negativity Spread

Attitude is contagious on a crew. One person complaining all morning can change the mindset of everybody around them.

That matters in linework because we depend on each other. The person on the pole, in the bucket, on the ground, and operating equipment all need to communicate and trust each other.

You don't have to love every job or every decision. But when it's time to work, bring an attitude that helps the crew instead of dragging it down.

Takeaway: Be the person who makes the crew better.
